Cooper Makes a Hasty Visit to Townson- town.—Early this week the Grand Jury indicted Howard Cooper, the fiendish young villain who committed the brutal assault on Miss Kate Gray, near Rockland, on the 2d inst. The witnesses were Dr. H. L. Naylor, Mr. and Mrs. Gray and a colored man to whom Cooper is said to have made a full confession of the crime. The young lady was not present. On Wednesday Sheriff Knight very quietly went to the city, accompanied by Deputy Risteau and C. Lewis Cross. A few minutes before one P. M. they appeared in front of the city jail with a pair of fast horses harnessed to a light vehicle. In a few minutes, and with every precaution as to secrecy, they had Cooper in the carriage and were driving towards Townsontown at a three-minute gait. They arrived here about 2 o'clock, slipped their prisoner into a side door and then to the Court room, in which there were very few persons. The formalities of arraigning Cooper and reading the indictment required but a few minutes, when he was again rushed out to the carriage and off they flew to the city, reaching the jail in about two hours from the time they left it. Cooper, of course, plead "not guilty," and his trial was set down for the 27th inst. When the Court asked him if he had counsel he replied in the negative and asked that one be "pinted" for him, which will be done. So quietly was the whole business done that not even the clerks in the Court House know that the villain was in the building, and learning afterwards that he had been arraigned, opened their eyes with wonder at what they thought a pretty neat scheme.

It is believed by many that Cooper will not be brought to Townsontown again, but will, through his counsel, make application for a removal of his case to some other county, which can be done. We understand, by his making the necessary affidavit in the city that he cannot get a fair trial in Baltimore county. If this is done the indignant people of the third district may never have an opportunity to wreak their vengeance upon him.

Another Wonderful Cow.—In the local columns of THE UNION last week were published the full particulars of the recent butter test of the Jersey cow Princess 2d, of Mrs. S. M. Shoemaker's Burnside Park herd, she having produced 46 lbs. 12½ ozs. of butter in seven days. Oxford Kate, another cow belonging to the same herd, was last week given a test under the supervision of Andrew Banks, Esq., of this county, who was delegated to act by Mr. John I. Holly, president of the American Jersey Cattle Club. At 4 p. m., April 1st, Mr. Banks had the cow milked dry. She was then milked at 4 a. m. and 4 p. m. on each day for a week. The milk was carefully preserved, and the cream was churned at stated times. Her daily feed combined consisted of 12 quarts of pea meal, 16 quarts of ground oats, 3 quarts of linseed oil cake, 4 quarts of wheat bran, with a bountiful supply of clover hay, beets and carrots. Her production of butter, unsalted, was 38 pounds 6 ounces; salted 39 pounds, 2 ounces. Oxford Kate was calved February 20, 1872, and is consequently a little more than 6 years old. She had a calf in January of this year.

The record of Princess 2d stands at the head of the list, and Oxford Kate is her only rival. Jersey cow belonging to Mr. Fuller, of Montreal, Canada, holds third place, with a record of 36 lbs. 6 ozs. in a seven days' test. We find that there are some persons who affect to believe that there are some crookedness about these tests, but we will continue to believe them entirely accurate until some good evidence is produced to prove that they were not.

Some "Solid" Poetry.—A little diversion from the usual style of spring poetry will not be proved acceptable. The following is hand-made and strictly first-class:

1. The winter is now past, the time is coming fast, that brings the genial sunshine bright and clear, clear, clear, and the paragoner gay will shortly put away the sealskin joke until another year, year, year.

2. The coal man and the plumber, all through the coming summer, will be allowed to take a well-earned rest, rest, rest, and springing from its tomb, the ice-cream joke will boom in new and handsome garments gayly dressed, dressed, dressed.

3. The picnic sandwich, too, existence will renew, and jokers on its make-up will decent, cant, cant, cant, declaring it is made of neither ham nor bread, but from the hardest kind of

A 6th District Trustee Has His Say.—*Ets. Union:*—In your issue of April 11th the following item appeared: "It is rumored that a teacher in the 6th district has been warned by his trustees that if he gives favorable expression to increased taxation for the public schools his resignation will be required of him."

Now that you have given publicity to this rumor we think that in order to do justice to the trustees of this district, you should give the source whence it came, so that if it be false the trustees affected by it may not be stabbed in the dark but given an opportunity to vindicate themselves; and if it be true, that the public may know who they are and not condemn the innocent instead of the guilty.

Although a majority of the taxpayers of this district may oppose an increase of taxation for schools, or for any other purpose whatever, we still believe that they are not so blind as to deny any person the right which the laws of the State give him—the right to freely express his opinion on any public question, or to threaten to deprive him of his position because he chooses to exercise that right. If there are such men in the 6th district—or in any other district—the public should know who they are, because they are not proper persons to fill the office of trustee, or any other office.

[We heard the rumor from a reliable source, but we are unable to name the teacher who is said to have received the warning alluded to.—Ets. UNION.]

Lauraville, Harford Road.—We have changed ministers at Eutaw Chapel again. In place of Mr. Smith we have Mr. Gill.

The mite society of Eutaw held an oyster supper last week, the proceeds for the benefit of the parsonage, and quite a handsome sum was realized. And while the old folks were at work the young people were also as busy as bees collecting money for the missionary cause. The Sunday before they were all supplied with clay eggs with the promise that the one that collected the most money would get a prize. The breaking came off on Friday evening, April 10th. There was quite a crowd present, and as each child's name was called they passed up their eggs and they were broken and the money counted, and after they were through the children gave a concert, which was enjoyed by all.

We have a very backward spring in this locality, and our gardeners are very much behind with their work.

Our public school has changed hands again.—Miss Parsons has resigned and Mr. J. B. Heisse, of the 7th district, has been appointed in her stead.

The health of our village is excellent. I would like to call the attention of our road supervisor to Grindon Lane. It has been in an awful condition this spring. A few loads of stone would be of great benefit. RESIDENT.

Rossville, 12th District.—The following sales of land have taken place in this neighborhood recently: Bernard Carter, Esq., has sold 10 acres to Adam Winterstein; Rev. J. H. S.
