

\$200 REWARD.—My man, JOHN SHAW, left my house (between Frederick and Newmarket) on Saturday, the 8th inst. He is about five feet five inches high, twenty-four years old, color black; has a scar on his right cheek and extending from the eye to the chin, said to be caused by a burn when a child; the lower lid of his right eye is contracted from the same cause, showing much of the white of that eye. He does not use tobacco or liquor; understands a little blacksmithing, and is fond of that work. His clothing was good—of dark cloth. He is believed to have gone off with Dr. W. L. Willis' man, of Newmarket, Fred. Fowler, as they were seen together Saturday evening. The above reward will be given for his apprehension and lodgment in any jail so that I get him, on a proportional reward for any information that leads to his apprehension.
